Champaign, IL | +1 217-200-5144 | st70@illinois.edu | ethan-tsai.com

EDUCATION

University of Illinois Urbana-Champaign

Aug 2026 – May 2028 (Expected)

Master of Science in Information Management

Focus: AI innovation, data analytics, information modeling, sociotechnical systems, and technology consulting.

National Sun Yat-sen University

Sep 2021 – Jun 2025

Bachelor of Information Management

GPA: 4.08/4.30

Micro-Programs: Machine Learning and Application; Japanese Studies; Manufacturing and Big Data Analytics.

Completed applied projects and competitions in web development, data analytics, and artificial intelligence(CV LLM).

WORK EXPERIENCE

Software Engineering Intern

Dec 2025 – Jul 2026

Wistron Information Technology & Services Corporation (WITS; TPEX: 4953)

New Taipei, Taiwan

- Replaced fragmented Excel-based workforce tracking with an internal talent intelligence platform built with SQL Server, stored-procedure ETL, FastAPI, and Power BI, enabling HR and PM to validate employee profiles, identify available capabilities, and generate workforce insights without manually consolidating spreadsheets.
- Prototyped Microsoft Foundry agents that automated repetitive finance-facing Excel consolidation, visualization, and Power BI semantic-model Q&A; integrated MCP, REST APIs, OAuth/SSO, and human-in-the-loop approvals to make business workflows secure, reviewable, and easier for nontechnical teams to use.

Software Engineering Intern

Jul 2023 – Aug 2023

SYSTEX Corporation (TWSE: 6214)

Kaohsiung, Taiwan

- Supported C# web application development and database-backed functional validation, including front-end checks using JavaScript and CSS.

SELECTED PROJECTS & COMPETITIONS

WishGather – AI-Assisted Sustainable Offerings Platform

Mar 2024 – Jun 2025

- Led a seven-member team in developing a mobile platform that connects surplus temple offerings with nonprofit organizations; won **2nd Place** in the Information Application category at the InnoServe Awards and received support from Taiwan's National Science and Technology Council.
- Built a YOLO image-recognition workflow to simplify offering uploads and implemented a retrieval-augmented generation feature for personalized fortune-stick explanations using React Native, Flask, MySQL, PyTorch, and ChromaDB.

SAS Institute Campus Hackathon – Finalist, Honorable Mention

Aug 2024

- Used SAS Viya to analyze loan payoff behavior, develop predictive models, and present the team's methodology, findings, and improvement recommendations during the final round.

LEADERSHIP & PRESENTATION

President, Web Programming & Design Research Club, NSYSU

Jul 2024 – Jun 2025

- Organized programming workshops, technical activities, and peer-led learning opportunities for club members.

Python Instructor, Web Programming & Design Research Club, NSYSU

Sep 2023 – Jan 2024

- Taught applied Python topics including machine learning, web scraping, and data processing.

Poster Presenter, UHIMA2025 & TLCMA2025

Jun 2025

- Presented “Exploring RAG-Based Generative AI Systems for Personalized Chronic Disease Care.”

Technical Skills: Python, SQL, C#, C/C++, JavaScript, R; SQL Server, MySQL, Power BI, pandas, scikit-learn, PyTorch, OpenCV, YOLO, RAG; Microsoft Foundry, MCP, FastAPI, Flask, Node.js, ASP.NET Core, REST APIs, Git, Docker, Linux.
